## HARDING WILL ASK CONTROL OF RAILROADS

Unless Strike is Settled Soon the President Will Seek Large Powers.

There is no change in the rail strike situation, which is hampering business of almost every kind. It is said President Harding will appear before Congress next Tuesday and ask for power permitting him to take over the railroads, unless a settlement is reached before that date.

The experience of government operation, it is thought by many people, probably appeals to both the railroad owners and the employees. Both of these forces "rode" the government in that period and they would like to do it again, according to the opinion of many people.

In the meantime the general public suffers and pays, the coal business is on the bump, and the winter season is not far away.

### LIGHTNING STRIKES TREE IN WILLIAMSON, W. VA.

Five were injured, none seriously, in East Williamson Thursday afternoon when a bolt of lightning struck a big beech tree under which they were working. The men were engaged in constructing a road way for the Wilhelmina Coal Co., and were working near the tree when the storm came up.

The bolt split the tree and it crashed down on the men, all being caught and crushed to the earth by the limbs and branches. Had it not been for the soft ground it is believed several of the men would have been killed.

Great excitement resulted when it was learned that the men had been caught under the tree and quite a crowd of volunteers assembled to rescue them. It was some time before they could be extricated.

A man named Dunn was found pinned down by the main trunk and it was feared that he had been crushed fatally. His injuries, however, were only slight. John Broadnax, colored, was the worst hurt, suffering a broken leg.—Mingo Republican.

### FIVE STRIKERS ACCUSED OF VIOLATING ORDER TRIED

Covington, Ky., Aug. 7.—Five defendants, former employees of the C. & O. Railroad, charged with violating the restraining strike order issued by Judge Cochran of the United States Court were on trial in Federal Court today. The defendants, charged with contempt by the C. & O. Railroad, which alleges that the defendants intimidated employees of the company thus interfering with their work.

Attorneys for the defendants informed the court that they would waive a jury trial and permit the court to pass on the evidence.

Three other defendants through their attorneys demanded a jury trial. Judge Cochran continued their cases until the opening of the October term. They were released on \$500 bond each.

### KNOTT COUNTY MEN RELEASED ON BOND

Calloway Dobson and Henry Combs, under indictment in Fayette circuit court for murder in connection with the shooting of Henry Noble, 16-year-old boy, who died in a Lexington hospital a year ago as result of wounds received when a party of officers were ambushed in Knott county, have been released from the county jail at Lexington under \$5,000 bond each.

Dobson and Combs were arrested several weeks ago in Breathitt county.

Four other Breathitt and Knott men under indictment in Fayette circuit court on the same charge are still at large. Green Watkins, Breathitt county deputy sheriff, was killed in the same attack that Henry Noble was fatally wounded.

### LOGAN COUNTY VOTE COUNT IS COMPLETE

Logan, W. Va., Aug. 4.—Cavass by the county board of canvassers, for all of the forty-six precincts of Logan county was completed tonight, with the following result:

United States Senate:—Republican, Sutherland, 690; Ogden, 567; Lilly, 273; Edwards, 125; Jones, 21; Democrats, Brown, 2330; Neely, 695.

United States Congress, Fifth District:—Republican, Goodygoontz, 1271; Democrats, Lilly, 2952; Pendleton, 426.

State Senate:—Republican, Godfrey, 1657; Keatley, 285; Hetzel, 74; Shoop, 52; Democrats, Campbell, 1248; Chapman, 674; Johnson, 199; Bowman, 118; Hays, 92; Hoge, 74; Kirk, 72.

### TENTH DISTRICT RESULTS IN CONGRESSIONAL RACES

Latest reports from the Tenth district indicate the nomination of F. T. Hatchet of Pikeville for Congress by the Democrats, although complete returns are not in.

John W. Langley was re-nominated by the Republicans.

### INJUNCTION STOPPED AWARD FOR WAYNE COURT HOUSE

A contract for building a new court house for Wayne county, W. Va., was to have been awarded on the fifth, but an injunction prevented this. The question will be argued before Judge Bland at Wayne next Monday.

## SUIT MAY DECIDE NORMAL TANGLE

### School Site Body Is Unable to Determine Meaning of "Establish."

Frankfort, Ky., Aug. 7.—A friendly suit probably will be instituted to determine how far the powers and duties of the Normal School Commission extend in the establishment of the two new schools. Judge W. T. Fowler, law partner of Judge Ed C. O'Rear, chairman of the commission, said tonight.

The question was presented to Judge O'Rear following a statement given out by W. S. Wallen of Prestonsburg, secretary of the commission, in which he said that the new schools might not be established until the mooted point of "powers and duties" of the commission was cleared up by the 1924 session of the General Assembly.

Both Judge O'Rear and Judge Fowler said the suggested suit reflected no dissension between the commission and the State Board of Education. Judge O'Rear said that the commission "has no ambition to infringe upon the authority of the State Board of Education and no desire to take responsibility beyond the duties imposed upon it."

Judge Fowler said that it had not been decided definitely to file a test suit, but that this seemed the only way of clearing up the situation.

The question is whether the word "establish" in the law means the commission is merely to select the sites to take title to whatever real estate is given, accept the money contributed, and then turn the property over to the State Board of Education, or whether the commission must erect buildings, equip them, employ faculty and adopt a course of study before turning them over to the board.

#### Dawson Gives View.

Attorney General Charles L. Dawson, who is now out of the city, said a few days ago that in his opinion a fair construction of the law would be that the commission should locate the schools, accept the property and erect the buildings, but that the employment of a faculty, the adoption of a course of study and such matters rather would fall under the head of management, which is the function of the State Board of Education.

Nothing was given out as to the probable time for the next meeting of the commission. At a meeting held in Lexington last week fifteen ballots were taken without any decision being reached as to the location of the new schools.

#### Wallen Sees Delay.

Ashland, Ky., Aug. 7.—W. S. Wallen, Prestonsburg, secretary of the Normal School Commission, said here today that unless the question of what the Legislature meant by the word "establish" was cleared up that nothing further might be done toward establishing the schools until after the 1924 session of the General Assembly.

#### AUTOMOBILE CLUB MAKING SOME ROAD REPAIRS

The Lawrence County Automobile Club is smoothing up the road from Louisa toward Blaine. Work is being done as far as Busseyville at present. The work will be extended on all roads where automobile owners justify it by joining the club.

By full co-operation of all auto owners this plan will be a great help in keeping roads in condition. A little attention all the time is the secret of caring for dirt roads.

#### GAS WELL IN BOYD.

Drillers have reached a depth of 900 feet in the gas well located on Keys creek, three miles back of Normal. It is owned by Sam J. DeBord and others.

Mr. DeBord declared that his men are drilling for gas which they expect to reach at depth of 1300 feet. He said that if oil was struck before the gas was reached and was of such quantity as to be a paying investment drilling would stop. If gas is reached, it is to be sold to the American Rolling Mill Company here, he said.—Ashland Independent.

## FIELDS WINS FOR CONGRESS

There was less interest displayed in the primary election in Kentucky last Saturday than was ever before known. The apathy held good in Lawrence county, the vote being extremely light. In three precincts, Busseyville, Swetnam and Gambill, the polls were not opened.

For Congress W. J. Fields, Democrat, received 664 votes in Lawrence county, W. T. Cole, 13, H. C. Duffy 48 and R. G. Buckler 1.

The Republican vote in Lawrence resulted 131 for George Osborn, 94 for J. H. Stricklin and 18 for Trumbo Snedgar.

In ten precincts in Lawrence Mr. Fields received every vote cast by Democrats, which is a remarkable record. He won in the district by an overwhelming majority.

#### MAJOR J. P. PAYNE KILLED AT HAZARD

Hazard, Ky., Aug. 7.—Major J. P. Payne, formerly of the U. S. army, who was shot here Saturday, died today in the Hazard hospital. Three bullets took effect, two in Payne's body and one in the arm.

Huckaby is in jail and it was said today a murder charge would be placed against him. Payne was a captain in the forces of the Baldwin-Felts detective agency.

The shooting took place in the Wooton Morgan building, where depositions were being taken in the divorce proceedings of Huckabee vs. Huckabee.

Payne, aged 47, it is stated, was assisting Mrs. Huckabee in a counter petition.

#### CARMY THOMPSON NOMINATED FOR GOVERNOR OF OHIO

Carmy A. Thompson has won the Republican nomination for Governor of Ohio. He is a cousin of Mrs. R. L. Vinson, of Louisa, and has many relatives just across in Wayne county, W. Va., most all of whom are Democrats.

#### LINCOLN DISTRICT VOTES \$150,000 BOND ISSUE

The proposition to bond Lincoln district in Wayne county for \$150,000 to build hard roads was voted on favorably last Tuesday. The road on which this fund is to be used is that leading from Wayne to Williamson.

#### MARRIAGE LICENSES.

Jim Nolan, 34, to Hattie Kirk, 24, of Chattooga, W. Va.

Everett Jennings Vinson, 25, to Nannie Glossip, 36, of Goodie.

John Bowles, age 23, was almost instantly killed when the automobile he was driving collided with another machine at Ironton Wednesday afternoon. Glass in the windshield cut his throat.

The accident occurred just outside the city at a crossroads. Curtis Davidson, of Superior, Ohio, was driving the other machine. Both were wrecked. The Bowles machine was thrown from the road and turned over. It belonged to Jim Flan, formerly of Pikeville. Bowles went to Ashland by train and hired the machine. A woman in the car is said to have broken collar bone. Other occupants were bruised, but not dangerously injured.

Bowles' mother and uncle, Mack Bowles, went to Ironton yesterday to accompany the body to Pikeville. The victim was a son of John Bowles, who died a few years ago.

## KENTUCKY RANKS HIGH IN FARMING

Census Bureau Gives Fifty-Four Per Cent of Population Living On Farms.

Washington, Aug. 1.—Kentucky is among the eleven States of the country which the population living on farms was more than half the total population, according to the 1920 census and one of the fourteen States in which the farm population exceeded 1,000,000 persons, it is shown by figures obtained today from the Census Bureau.

Kentuckians living on farms in 1920 numbered 1,304,862, or 54 per cent of the total population of the State. The nine States which exceed Kentucky in percentage of farm population are: Mississippi, with 1,270,282, or 71 per cent of the total population; Arkansas, with 1,147,049, or 65.5 per cent; South Carolina, with 1,074,693, or 63.8 per cent; North Dakota, with 394,500, or 61 per cent; 51, or 58.7 per cent; Georgia, with 1,685,213, or 58.2 per cent; South Dakota, with 362,221, or 58.9 per cent; Alabama, with 1,333,885, or 59.5 per cent; and Tennessee, with 1,271,708, or 54.4 per cent. Kentucky ranked tenth or immediately after Tennessee, while Oklahoma, with 1,017,327, or 50.2 per cent, was the only other State which had more than half its total population living on farms.

Texas had the largest farm population of any State, although it is not among the eleven States whose farm population exceed 50 per cent of total population. Its total farm population was 2,277,773. Kentucky ranked tenth in total farm population, the other three States ahead of it being Georgia, North Carolina and Alabama.

## PRESTONSBURG MAN KILLS HIMSELF

Mr. Tom Johns is reported to have committed suicide last Monday at his home in Prestonsburg, by shooting himself through the heart. Nobody was present when the rash act was committed, his wife having just left the room. He was near 50 years of age.

Mr. Johns had been in ill health for several years and was very despondent at times as the result of this condition. He was a son of John G. Johns, who died in Winchester a year ago. The wife and a married daughter survive him. Also, two sisters, Mrs. George P. Archer and Mrs. Ernest Robinson.

#### False Report Told of Fatal Affray at Webb

One of the wildest canards ever put over in this vicinity was broadcast last Tuesday from a point near Webb, W. Va., about 18 miles southeast of Louisa on the N. & W. railway. It said Walter Copley was killed and Lee Curry and Rufus Wallace fatally shot in a controversy over the bond issue election then in progress. 12 state police were sent hurriedly from Williamson.

It develops that "Slick" John Crum was very active in the bond election at a voting place a few miles distant just before noon to get him away. Crum fell for the canard and is said to have started at once for Webb with a number of friends to avenge the supposed crime. Before the truth was known the report got into the newspapers.

#### LOUISA MADE GOOD IMPRESSION.

Through outside sources we learn that the State Normal School Commissioners were most favorably impressed with Louisa. They so expressed themselves individually in conversation with persons not living here. After the visit of the commissioners to Morehead a Louisa man talked with an official of that place without disclosing to him that he was from Louisa and the official said Louisa was the only competitor that Morehead feared.

#### WILL RETURN TO VAN LEAR.

Mr. C. L. Hawkins and family who recently moved to Louisa from Van Lear will return to that place about the first of September. He is purchasing agent for the Millers creek division, Consolidation Coal Company. Their new residence on Locust avenue will be occupied by Mr. and Mrs. T. J. Phillips, who will move here from Robinson creek, Pike county, where they have been living the past few years.

#### LOUISA VS. WAYNE SUNDAY.

What is expected to be the best base ball game of the season will be played on the local field Sunday when Wayne returns to get revenge for her overwhelming defeat of a week ago. Wayne will be reinforced by several players from Huntington and will present a strong team. The local team is going at a great clip at present and expects to again return the victory though they expect a hard battle.

## PROGRESS OF THE HOME COMING AND CENTENNIAL

Immense Crowd Indicated by Responses to Invitations.

(By R. C. McClure)

#### Community Spirit Commanded.

Most of our citizens, we dare say, by this time know about as much of Home Coming Week, Aug. 28 to Sept. 3, as ye scribe. We have told you long and loud for the past four weeks; so there is little left for us to say. We do desire, however, at this time to emphasize the hearty community spirit that is apparent everywhere. Enthusiastically our people unite to make the occasion one to be long remembered, no bickering, no dissension; united and harmoniously we each move to the task assigned in providing entertainment of every character calculated to please our relatives and friends that are so soon coming back to see us, so soon to be our guests. Most commendable such a spirit should characterize our people at this particular time, and may we not venture the hope that it will perpetuate itself, both in Louisa and in Lawrence county. Let us keep it up after "Home Coming Week" has passed into history. It will make us a stronger and more successful and happier people, if we will do this. Let us assert the supremacy of moral and spiritual ideals in the community of which we are a part, co-operative in every movement which has for its ultimate aim, a better Louisa, a better Lawrence county.

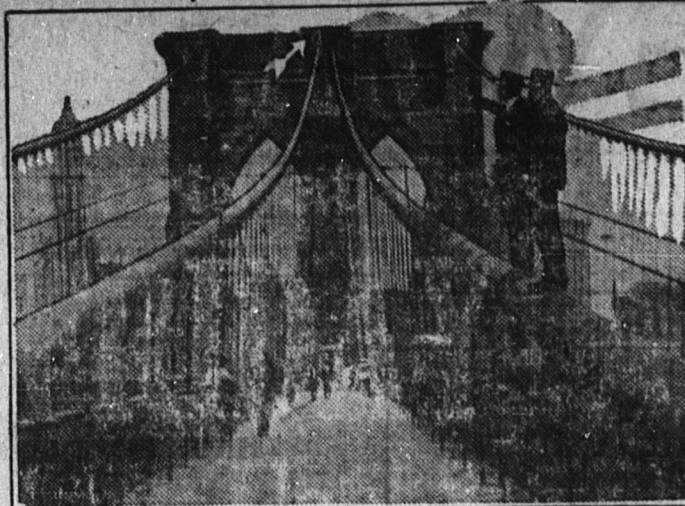

#### Say They Are Coming.

The return postal cards that accompanied our invitation and 36 page booklet-program, are being returned from every direction, properly signed, and, strange to say, up to date, not a single one has declined our invitation. Some have taken the trouble to write us long epistles telling us how much they appreciate our efforts, commanding the energy that we are putting into this movement, and venturing the hope that they may soon be with us.

#### Added Entertainment Feature.

On Saturday, September 2, we are going to put on a calithumpian parade, this for the entertainment of young America, not going to forget our young people, and not a few of us boys past fifty want in on this parade; want to go back and renew our youth by laying aside our dignity and dressing up in the ludicrous, mirth provoking costume. By the way, some of you older boys may have forgotten just what kind of a parade this is, so we define it calithump, a boisterous parade, with blowing of tin horns and other discordant noises, also a burlesque series, a charivari. So Mr. Mayor you are in the hardware business and we'll ask you to see that we all get a tan.

The new Goodyear Cross-Rib Tread Cord

## A Remarkable New Cord Tire at a Popular Price

Here is a big, sturdy, long-wearing new tire built to satisfy the buyer on every point of mileage, quality and price.

It is designed especially for the man who wants the essential advantages of cord tire performance at the lowest possible price.

It is designed to offer the buyer a quality product at a price even lower than he has formerly paid for a "long discount" tire. It has a different tread from the famous Goodyear All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and its selling price is substantially less.

This new tire is the Goodyear Cross-Rib Tread Cord.

Like the All-Weather Tread Cord it is liberally oversize in all straight-side sizes, the

4½-inch tire, for example, actually measuring nearly 5 inches.

Like the All-Weather Tread Cord, its foundation is genuine high-grade long-staple cotton.

Like the All-Weather Tread Cord, it embodies the efficient group-ply construction, a Goodyear patent.

Like the All-Weather Tread Cord, it is the product of an experienced company which has a world-wide reputation to safeguard.

Look at the prices of the new Goodyear Cross-Rib Tread Cord, listed below.

Compare these prices with net prices you are asked to pay for "long-discount" tires.

30x3½ Clincher... \$12.50 31x4 Straight Side \$22.20 34x4 Straight Side \$25.90 34x4½ Straight Side \$32.95  
30x3½ Straight Side \$13.50 32x4 Straight Side \$24.50 32x4½ Straight Side \$31.45 33x5 Straight Side \$39.10  
32x3½ Straight Side \$19.25 33x4 Straight Side \$25.25 33x4½ Straight Side \$32.15 35x5 Straight Side \$41.05

These prices include manufacturer's extra tax.

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks

DEMOCRATIC TICKET.

For Congress—W. J. Fields.

The Republicans of Nebraska have nominated a Bull Moose for the U. S. Senate. The "Standpatter" is a slow hoss this year.

Congressman John W. Langley wired congratulations to Senator Jim Reed of Missouri for winning the Democratic nomination for the Senate again. Serves him right. Hundreds of other Republicans are doing the same thing. Reed was nominated by Republicans crossing over and voting for him, especially in St. Louis and Kansas City, in order to make certain victory for their nominee in November. Also, he received the solid un-American vote.

Riding the general public under cover of the United States government is a popular sport. With passenger fares at 3.65 cents per mile and freight rates far above any pre-war figure, with thousands of cars and locomotives juked to get a good price for them from the government; with wages high and working rules higher; with a strike, and sympathetic efforts on the part of other men, still drawing their salaries, to break down the operation of trains, the situation in the United States is rapidly approaching the worst ever experienced. The people in general, comprising 90 per cent or more of the total population, are doing the suffering and the paying.

The Literary Digest is making an elaborate poll of the voters of the United States on the questions of prohibition, light wines and beer, and wide open "wet." In the first half million votes 181,704 favor strict enforcement of the present laws. 196,864 want light wines and beer, but not other liquors, and 101,475 are "wet as a dog."

The poll also covers the soldier bonus question—233,613 for it and 241,440 against.

The "light wines" have 15 per cent alcohol, enough to make anybody drunk, and the beer would be strong enough to befuddle all who indulge in it. It is not likely that anyone living now will ever see prohibition laws repealed, but the dry people must be on the job all the time to meet the aggressiveness of the wet.

Things are happening in rapid succession these days that should do more for the "back to the farm" movement than all the preaching and screeching that ever has been done on the subject. The way to keep the younger folks on the farm is to make the farm a more livable place. Good roads, automobiles, the radio, the talking machine, gasoline power, electric light plants at low cost, screens for homes, convenient and helpful equipment for the kitchen and household generally, so as to relieve the women of unnecessary drudgery; and the adoption of all things that make homes more attractive.

Think of what the latest of these great inventions will do! The radiophone (wireless telephone) which brings into country homes every day and night the market reports, great band concerts, speeches by prominent men, sermons by the most famous preachers. Receiving outfits can be installed in the home at small cost, all the way from \$25 to ten times that amount. What could add more to the pleasure and enlightenment of a farmer's family than to gather in the long winter evenings in their homes and without any cost whatever, listen to the greatest artists and speakers as their best productions are broadcasted upon the air? Nothing more wonderful, practical or beneficial has been discovered or invented than the radiophone. Its possibilities can scarcely be imagined.

DOT.

Mr. Ayres Accepts  
Invitation to Our  
Home Coming

Fortville, Ind., Aug. 7.  
Big Sandy News, Louisa, Kentucky.

Gentlemen:—It is proper and right that we should manifest an interest in the renewal of acquaintance with our neighbors and friends as often as it is possible to do so. The County Centennial and Home Coming Week which your good people are arranging will be a pronounced indication of the abounding hospitality of the citizenship of Louisa and surrounding communities.

The yearning for the scenes and environments which are associated with one's youth, or at least where happy years were spent usually in early life, is a peculiarity of the human family only to be explained by the certainty with which they are effected by their environment. Home is something more to child and man than the house in which they live. It includes that part of the world outside with which he or she is most familiar. And this inclination is much stronger if he lives in the country or town too small to keep him within its borders. The boy who roams the fields and woods which surrounds his home, who knows all about the streams and forests nearby, and who climbs the hills and mountains near his native heath, is the one in whose memory is stamped the clearest picture of the scenes of his childhood. The city changes from year to year and the child that is reared and lives in a tenement in a large city, seldom has a desire to return to the scenes of his childhood or cherishes the memory of its charms. He does not recall his surroundings as vividly as the boy who looks out on the blue, unchanging hills and mountains, or the vast stretch of the Western prairies. A dweller among the hills and mountains never in later years entirely reconciles himself to a level and prairie country. He admits that the flat fields of grass and grain have their attraction, but always his heart turns to the hills and mountains.

It is something inborn that creates this love for place, it is a bond that binds a man to the spot where he was born. He may break away, but in memory, at least, he goes back with a tender thought for what to another may be an uninhabited place, but to him it has the power to draw him from the ends of the earth, though all dear ones who shared the old home-stead are passed away.

Receiving your wonderful program recalls to my mind many friends in your county, and although I am not a native I feel at home when in your midst. Both my grandfathers were born in your splendid state near Maysville and migrated to Indiana in the early thirties. Therefore, I feel as one of you and will endeavor to be present during your celebration.

6:00—Supper.  
7:30—Vesper service, in charge of the Louisa pastors.  
8:00—Camp fire, story telling.  
9:30—Bed.

Many new games will be taught the boys and girls by the Y. M. C. A. directors and each individual will be allowed to make his own record, and points will be scored by tribes.

You can't afford to miss this big outing and you can assure your parents that you will receive excellent care. The girls will be in charge of Miss Katherine B. Christian of the State Experiment Station, Lexington. Miss Pearl Holt of Louisa, Mrs. John Cheap of Louisa and Mrs. R. O. Bate of Vanceburg. The boys will have four County Agents as well as Mr. J. M. Feltner, who will have direction of the camp.

Don't forget the date, and send me your application at once. I will gladly give further information in person to any one desiring to send their boys and girls if they will only call on me.

Yours for better camp,  
G. C. BAKER, County Agent.

WAYNE COUNTY EXAMINATION.

In the recent teachers examination in Wayne county, W. Va., there were 97 applicants. A supervisor's certificate was granted to Chesley A. Lycan of Fort Gay. Two number one certificates were issued to Thomas Naper of Klahsville and Albert B. Dyer. Forty-one received second class, 28 third class and 25 failed.

DEATH OF BERT MOORE.

Bert Moore, who was injured in a coal mine accident at Lunde, W. Va., some weeks ago died last Monday in a hospital in Huntington, W. Va., where he had been since the accident. The body was taken to his old home on Irish creek where burial took place last Sunday. A brother, Sam Moore, and other relatives survive.

HOME COMING WEEK

(Continued from page one)

sale of tickets to cover the cost of putting on this mammoth entertainment program for Home Coming Week are urged to speed up, get this part of the work over with so that we may check up our receipts and see just how big we can afford to make it. It is now less than three weeks to August 25th, opening day, and we insist that you make your reports to our Treasurer, G. R. Vinson, just as soon as possible. Push the sales and be sure to tell 'em that a ticket will admit them to six splendid ball games at ball park and to our historical exhibit and to all other features of the fair and furnish them music to entertain when they are tired and want to retire to a room at the court house.

Base Ball Teams Coming.

For lovers of royal sport we have arranged the following games of base ball at ball park, just across the river from Louisa:

Monday, August 28, Louisa will play Ashland.

Tuesday, August 29, The Fats will play The Leans.

Wednesday, August 30, Louisa will play Wayne, W. Va.

Thursday, August 31, Masons will play Oddfellows.

Friday, September 1, Louisa will play Jenkins.

Saturday, September 2, Louisa will play Wayland.

Louisa boys are some sports when it comes to athletics; have been running in high all summer. If they have lost a single game we haven't heard of it, and they say that they are not going to haul down their colors during Home Coming Week; so here is your opportunity for real fun. You cannot afford to miss seeing at least some of these games put on for your entertainment.

Let Us Go Over The Top.

Everybody boost, everybody push, everybody buy a ticket, everybody help just a little, and let's show our long absent kith and kin and our friends and their friends the time of their life during Home Coming Week Aug. 28 to Sept. 3. We'll have opportunity to do it only once in a lifetime.

Junior Agriculture Club  
Camp For Lawrence  
and Boyd Counties

Preparations are being made by the County Agent of Boyd and Lawrence counties for a huge Junior Agriculture Camp to be held the week of August 21. The site for this big outdoor event is at Eloise about 1½ miles above Louisa.

The camp, which is to be attended exclusively by boys and girls who are club members, or who will enroll at once and become club members for next year, is expected to be the largest and most successful ever held in this section of the state and will be of great benefit to those who attend.

Every boy and girl in Lawrence county who is a member of the Junior Agriculture Club is expected to attend. Others who are not members of the club may become eligible by forwarding their application to their County Agent at once notify him that you are planning to attend the camp, then join the club when you arrive. It is the aim of the Agriculture Extension Department through their County Agents to have the youths from the farm derive as much benefit from these summer camps as is possible; consequently it is their purpose to see that every boy and girl in the county where the camps are held, who wish to attend, may be able to do so.

Those who attend the camp are required to contribute one dollar as expense money to pay for rented tents, cooks, straw, etc. Other than this no fee will be charged and all camp activities will be absolutely free. Of course each camper will bring along their own equipment which will consist of a flour bag full of foods, a list of which has been sent to each club member, as well as many other things on a big outing like this.

Last year our camp was held in Boyd county and was a decided success. The reputation which it established will help to make it a much greater success this year. Eloise is a splendid location for the camp and is easily accessible.

For the work of the camp, which will be both educational and recreational, will be conducted by men and women from the State Experiment Station at Lexington. They will have full charge of the work and will have a program already planned.

The club campers will be divided into four groups, each group will be named after an Indian tribe. Contests and events of all sorts will be held between the various groups. Points will be awarded according to the various duties performed. Special honor will be accorded the ten best campers and special medals will be awarded to the three best campers, to be judged by the teachers.

Parents who have not given their consent to their children to attend are urged to do so, and they are also urged and cordially invited to attend the camp after it gets under way and see just what is trying to be done for their boys and girls, after which they will gladly co-operate more closely and become more interested in the welfare of their boys and girls.

Wednesday, August 23, is especially designated as visitors' day and it is hoped many parents as well as other adults, teachers and schools will visit the camp on that day. Thursday night will be stunt night and all are cordially invited to attend on that night and see what our boys and girls from the farm can do on short notice in the way of home talent stunts and wholesome fun.

KENTUCKIAN HELD  
IN FRIEND'S DEATH

New York, Aug. 3.—Paul Ceppek, 48 years old, of Lynch, Ky., is under arrest here in connection with the death of his friend, Andy Kirchowitch, also of Lynch, whose body was flung from a train near Cleveland yesterday. Money belonging to the dead man was found on Cepkek, police declare.

Sheriff Bachus of Elyria, Ohio, wired that Kirchowitch was hurled from a train after being robbed. Cepkek says Kirchowitch left the train at Cleveland, leaving his money with Cepkek.

An Informal Glimpse of

The New Fall Wearables

Dresses, Coats and Suits for the first cool days

This informal display will be of interest to the late vacationist and to those who wish a full season of service from their new apparel. Even though these models are presented considerably in advance of Autumn, they are authentic in modeling, and will retain their full degree of smartness even after the new season has thoroughly developed. The various models in this collection, while not numerous, give convincing evidence that the fashions for Fall and Winter will be fully as smart and wearable as ever before.

Dresses for Street and Afternoon

Lizard-skin is one of the most attractive of the newer fabrics, resembling its name-sake in its glossy sheen and shimmering texture. Crepe Satins and fine Canvons vie with the heavier crepes for early season favor, and many unusual effects are shown in both types. The straight-line mode of seasons past is rapidly giving way to draped effects. The low waist-line, however, has lost none of its prominence, while the longer skirt lengths with even or irregular hem lines are assured. As usual in the wearables for Fall, sombre shades are favored and this select group of frocks shows a decided preference for black, navy, brown and various shades of grey and tan. Little, if any, trimmings are used—the models depending on their smart drapes and panels for decoration.

The Coats

PILE FABRICS have proven so popular that little else is shown in the new coat models. Velvettet and Vapeur Fashions are the two outstanding favorites in this class and are delightfully different in weave, lustre and finish.

Lines are especially graceful and adaptable to the slender figure as well as the figure of ample proportions.

Dark colors are favored and blend well with the season's popular furs—beaver, squirrel, fox and caracul—this latter fur gracing the finest of wraps as well as the utility coat.

—and the Suits

MEN'S WEAR SUITINGS rival the conventional: Tricotine and Poiret in popularity, while clever stripes and iridescent patterns in worsteds and silk cashmere are favored for the severely tailored styles.

Three-quarter length pockets in both the fitted and loose-back models are entirely new features and serve as an added note of embellishment together with braid-bound edges, plaids and straps of self-fabric.

Skirts are plain and somewhat longer than those worn the past few seasons. The predominating colors are navy, brown, oxford grey and black.

## WAYNE PROVES EASY VICTIM FOR LOUISA

### Only One Run and Three Fluke Hits Secured Off McGuire.

The Louisa ball team had a merry-go-round Sunday when they defeated Wayne by a score of 11 to 1 on the local grounds. Ten hits and ten runs were secured off Adkins and one run off Ferguson. Wayne's only tally was made in the first inning by an error and poor throwing.

Wilson's single in the second with two on scored Louisa's first two runs. After Cain singled in the third, Frazier tripled and scored on Tavener's sacrifice fly to center.

Hits by Brown, Lovely, Frazier and Roberts, and two errors gave Louisa three runs in the fourth. A base on balls and hits by McGuire and Cain and an error by Burgess added three more runs in the fifth.

Charley Ferguson went in to pitch for Wayne in the sixth inning and struck out the first three men. An error gave Louisa its eleventh run in the seventh.

Geo. McGuire pitched "big league" ball for Louisa. Only seven men reached first base. Four "died" there, one was forced at second, one out via Frazier's arm to second, and one circled the bases for a tally.

Only three hits were secured off McGuire and these were "flukes" of the worst kind. He should have had a no hit game.

The box score follows:

DEAR HEART.

W. VA. NATIONAL GUARD  
TO CAMP WITHIN BORDER

Charleston, W. Va., Aug 4.—National guard plans for summary training underwent a last minute change which will keep the guard regiment within the state borders. It was announced today. The regiment was to have left Sunday for Camp Knox, Louisville, Ky., for its training, but under the new orders received from Washington the West Virginia men will be divided into two camps, one at Fairmont and one at Nitro. No reason for the change was announced by Adjutant-General John H. Charnock, but he pointed out that it would effect a saving of over \$15,000 in transportation.

At the Fairmont camp will be Company A (Military police of Parsons, Company B, St. Albans; C, and D, Charleston, and the band section of the service company of the first battalion. At Nitro will be companies E, Logan; F, Mount Hope; G, Mullen; H, Point Pleasant; I, Williamson; K, Welch, M, Logan; headquarters company, second battalion, Beckley; headquarters company, first battalion, Clendenin.

## YATESVILLE

Work on the road is progressing nicely but there is still a lot of work to be done. The road is already in use by the traveling public from here to Louisa and to travel over the present new route causes the place to look altogether different from the way the country used to look.

The late refreshing showers are great on our corn crops which never looked better at this time of the year.

All the teachers of our section are giving satisfaction in their schools so far as we have heard.

The apple crop is excellent as is also the plum crop, but the peach crop is rather light.

The oil business in the Yatesville oil fields is about on a stand still at this time. But Charley Adkins and Millard Crank each has a job in the Blaine oil field where they are at work at the present.

Robert Elkins is our telephone lineman and is finding lots of work to do on the lines, they having run down considerably. The grading of the new road has been hard on all the lines that it followed. Of course the damage to the lines couldn't be avoided and everybody wants the road as much as they want the telephone system.

Bascom Thacker is mining coal on Catts Fork for Bascom Shorridge, who is furnishing coal for the steam shovels.

Ernest Bentley has leased the Fred Chaikin mine and will furnish coal for the local trade the coming fall and winter.

Everybody around Yatesville is looking forward with bright anticipation to the Home Coming Week and to the one hundredth anniversary of our county seat. We are all anxious to see the old citizens that used to be in Louisa, the latter part of the last century—back in the seventies. Taylor McClure conducted the teachers institutes and Leo Frank was our jeweler and always furnished the teachers with watches. We are expecting to see many of the old timers, but many of them, of course, we will never see again here, they having gone from whence none hath ever yet been known to return.

## COUNTRY GREENHORN

## WEBBVILLE

L. J. Webb, traveling salesman, was here over Saturday and Sunday.

Mrs. Rhoda Holmes and children of Fullerton were visiting Elizabeth Pennington over Sunday.

Nelson Hillman was calling on Miss Judy Hicks Sunday.

Mrs. Duncan of Riverton is visiting her son, Fred Duncan, of this place.

Elizabeth Pennington entertained for dinner Sunday the following: Mrs. Rhoda Holmes and children, Misses Ruby and Martha Pennington, Bertha and Irene Lang, Messrs. Walter Woods, Kenneth Waddell, Elmer Smith and Bert Holbrook. The crowd was entertained at Mr. and Mrs. Wayne Parsons Sunday evening, including James and John Pennington, Clara Holbrook, Eva Pennington, Ruby and Lewis Flannery.

Walter Thompson and Fred Duncan made a trip to Louisa Sunday.

John Pennington left Monday for Tuscola where he is teaching school.

Hazel Hicks is visiting Mr. and Mrs. Walters at Blaine. X Y Z.

## FALLSBURG

There is a great deal of sickness in our community. Three of Arthur Savage's children have typhoid fever.

Mrs. Bob Chaffin went to Brammer Gap Saturday to visit her daughter, Born, to Joe Fugate and wife, a fine girl.

John Cooksey and family motored to Ashland Saturday.

Mrs. David Mullins is improving. Mrs. and Mrs. Alvin Runyon of Huntington were the guests of Mrs. J. W. Austin this week.

Garnet Short, who has been visiting her grandparents returned home Saturday.

Misses Lou Carter and Opal Casey were the guests of Grace Jordan Thursday night.

Mrs. Josephine Kane and Mrs. Saulsberry of Poter were the dinner guests of Mrs. Joe Fugate Sunday.

## To The Trustees, Teachers, Attendance Officers and Patrons

Trustees:—All coal bills presented in legal form will be paid on August 30, and I am asking each trustee to have the coal all furnished in your district by this date if possible. If you do not have claim blanks they will be sent to you for the asking. I want good clean coal, 100 bushels for each district and should some one furnish any other kind do not accept it. It has been reported that I have contracted coal without consulting the trustees. I wish to say that this is a mistake. Neither of these districts has a trustee and the largest amount paid in either was 10¢ per bushel and the lowest 1¢ per bushel, delivered.

All trustees should come to Louisa on August 30, this is education day, to hear State Supt. George Colvin, speak on educational matters.

If I have not supplied your district with seats I will as soon as the seats arrive. We have 120 more seats bought for filling in purposes.

To the Teachers:—In making your reports to the attendance officer, do not report any children who are not seven and do not report any who have received sixteenth birthday (this is a new ruling by State department.)

The law says all children between the ages of 7 and 16 and according to the new ruling the law would read between the ages of 7 and 16, not inclusive.

All teachers should be at Louisa on August 30 with as many of their school children as possible. We ought to have not less than 2000 rural children here on that day. It would be worth more than a week's work in school. If I were a teacher I would try to spend the last three days at Louisa. I mean August 30, 31, and Sept. 1. It seems to me that it would be time well spent. If each teacher could arrange for at least 10 children this would be 1000 each day.

I am asking each teacher to do his best to attend on the 30th of August and talk this up in your district. Get the people interested in this day, tell them that the State Superintendent will be here to talk education and nothing more. I shall look for you and your children on the 30th of August to spend the day in Louisa. Tell the parents that they need not go to any extra expense for dress for their children. What looks better to a man or woman of sense than a little boy barefoot, with overalls on and a checkered shirt and a straw hat or a little barefoot girl with gingham dress and nothing on her head but a nice suit of sun-burnt hair, so come regardless of dress.

To Attendance Officers:—Do not pay any attention to the boy or girl that is 16 or more years of age and should you have made any reports to date on children 16 and over cancel them all.

To the Parents:—The law says that each parent or guardian of any other person having a child or children un-

der his control must send to school five days out of each week and for neglect or refusal shall be fined not less than five dollars for each offense and they may be fined more.

If your girl or boy has received his or her 16th birthday they are out.

We are expecting to see you and all your children here on August 30. This is educational day for Lawrence county.

Dress your little boys and girls just like they were going to school and let them come to Louisa on the above date. There will be some strangers in town on August 30 and all the rest of the days as to that. I want these strangers to see your boys and girls with their merry faces and intelligent looks. The State Superintendent will be here on August 30 and it would be a treat for your children to hear him speak for he will speak to them collectively and individually when he has an opportunity.

I will close by saying come with your children and enjoy the day. You are welcome, yes more than welcome, Louisa, your town, wants you here.

## Crude Oil Runs Last Week in July

Crude oil runs from the Eastern and Southern Kentucky districts, covered by the Cumberland Pipe Line Company, for the week ending July 29, totaled \$2,299.40 barrels, as compared with \$2,251.86 for the previous week, showing that despite the recent slump in the price of this commodity, the output continues at about its normal stage. Blaine 22a district of Johnson and Lawrence counties still holds the record, with more than 11,000 barrels to its credit.

## The Road To Long Ago.

By James J. Montague

Often, when I hear the stories that a Little Fellow tells, Of a land of summer sunshine, singing brooks and quiet dells, Where there's neither work nor worry, and one listens all day long To the crooning of the crickets and the robin's nesting song. I'm reminded as he chatters, with his eager eyes aglow, That this land was my own country, in the time called long ago.

From the hilltop which he fancies that his feet were first to tread I have heard the mother robin call her children home to bed; I remember how the crickets stilled their song when I drew near, So I never could discover if they sang by note or ear. Sometimes I heard fairy voices in the rustling maple tree. But however hard I hunted, not a fairy could I see.

There were bears in my own country, so it wasn't safe to roam When the woods were filled with shadows, very far away from home. Quite a wicked little goblin lurked beside the river's brink. And the better part of valor was to keep away from him.

Still the sun seemed always shining through the long and pleasant day, And I wonder rather often why I ever came away. If your girl or boy has received his or her 16th birthday they are out.

We are expecting to see you and all your children here on August 30. This is educational day for Lawrence county.

Dress your little boys and girls just like they were going to school and let them come to Louisa on the above date. There will be some strangers in town on August 30 and all the rest of the days as to that. I want these strangers to see your boys and girls with their merry faces and intelligent looks.

## Hard Work is the Secret of Success

London, August 5.—What is the secret of success? Is it long hours and a life of drudgery?

"My soul has rebelled against drudgery for the last 50 years," said Lord Waring, "yet there always has been something kept me at it for an average of 15 hours a day." Can a man attain success without hard work? What is the average number of hours a day put in by the successful man or woman?

Eminent business men and women, artists, actresses and novelists tell of the prodigious labors they pay for their success. The keynote of their comments is that long hours and drudgery are inseparable from success if they are not always a sure guarantee of it.

Gordon Selfridge said: "My office hours are from 8 a. m. till 7 p. m., but in or out of office I am always at work. Success means untiring alertness and the wakefulness that sees and seizes every opportunity."

Erie Gamage declared that it is impossible for the business man to measure his work in hours. He stops work only to eat, and then he talks of business ways and means. Building a business is not like laying bricks. You must be absolutely engrossed in it."

## CARD OF THANKS.

We wish to thank our many friends and neighbors for their kindness during the sickness and death of our little grandson, Eskel Hays Webb. Also, Bro. Hutchison for his consulting words. MR. AND MRS. D. J. THOMPSON, Jattie, Kentucky.

## WIFUNCHETTES

It may be trite to say that farming is the most necessary and one of the most honorable occupations in the world. The world will always be indebted to the farmer. Without him it would be impossible to

progress in any line. The farmer has not always considered his position in the dignified way he should. In fact, it is only in recent years that he has been made to realize the scientific side of his work. Prior to that time he was really a trespasser on the soil; he was a robber; an ingrate. He scratched the soil; he mutilated it; he robbed it of its producing power. Any farmer who does not give back to the soil a proportionate part of that which he takes from it is an embezzler, not only of God's Providence, but also of Nature's bounty.

The farmer did not have the right attitude toward his own son. He worked him because he was his son. That was unfair and dishonest. He should have considered his son a partner and shareholder in the labors, responsibilities, liabilities, assets and profits of the farm. He

should have rendered an account to his son, paid him a just compensation, and given him an honest and equitable share in the profits of the farm.

The farmer has not always made the farm attractive to his son. You can't keep a boy at home if you give him a pine knot fire by which to read when the world offers him electric lights, a library, and a reading lamp. The farmer must bring the pleasures, amusements, books, magazines, and attractive things into his home and upon his own farm if he expects to keep his boy and make a great agriculturist out of him.

The parcel post, the rural mail delivery, the automobile, the paved

highway, and other conveniences, are for the purpose of enabling the farmer to bring the attractions of the world into his own little country home, into his own desolated farmhouse, and to his own fireside. If he will seize the opportunity, fill his table with magazines, papers, and good books, bring in the music box, and the wireless radio, and thus make his home attractive, bright, cheerful, magnetic, and fascinating, he will keep his boys and girls around him.

This is the day of the farm if the farmer will only realize it. This is the hour when the farm ought to be the most attractive spot in the country; this is the moment when the farmhouse ought to ring with music, and the barnyard ought to be the convention hall of agricultural and political activity. The farmer should make his son the leader in that convention and teach him how to mould public opinion and direct legislation.

Let the farmer learn how to be generous and kind to his children and to keep them in the atmosphere of agricultural purity, peace and prosperity.

## Poem by UNCLE JOHN

This life we live is irksome, no matter where we be; the road is lined with boulders, an' breakers crown the sea. But we mustn't get discouraged an' declare that life's a cheat, for the prospects ain't so cheerin' when a feller gets cold feet.

The man that proves a winner, is the man that trims his sails, and steers his craft, unerrin' amid the storms or gales—the hard knocks don't dismay him, which he squares his chin to meet, and his symptoms don't betray him—he never gets cold feet!

There ain't no road to glory, but what's beset with thorns, and it's purty hard to travel, if you're pestered some with corns. So, to make y'all failure certain, wear y'all pants out on the seat, —it's a sign that alters tells me that a feller's got cold feet.

I like to greet the feller that can laugh at clouds an' cares—that squares hisself in trouble, with his fists as well as prayers. One that earns a benediction, that is mighty soft an' sweet. He blessed the world he lived in, and — he never got cold feet!

*Uncle John.*

## JEWETT CONQUERS THE ROCKIES

Not finding any hills in town tough enough to bother him, a Colorado Springs owner of a Jewett, the new Paige built 50-horsepower Six, drove to Manitou, six miles from the Springs and ascended Ute Pass.

This grade is the beginning of the climb to Pikes Peak. To make Ute Pass in high gear with a running start of 30 to 40 miles an hour is considered exceptional performance, but the Jewett with two people made a stand start at the bottom, shifting from first to second and from second to high within a distance of 50 feet and went over the top at 20 miles an hour in high gear. This grade runs as high as 14 per cent, besides having a number of sharp turns.

When the Jewett had covered 40 miles the same owner drove this car to Cripple Creek, a distance of 42 miles, rising from an altitude of 6,000 feet to 11,000 feet. Only one shift was made from high to second for a distance of about 1,000 feet.

Cripple Creek abounds in steep and long grades. The longest and steepest is Tenterfoot Hill. This the Jewett, with four people, mounted one-third of the way in high and the rest in second. The Jewett, the owner reported, went as far in high as cars selling for two and three times its price had previously gone in second and he is yet to find any grade that compels to go into low gear. The cool, he reported, was perfect.

## TRAIN HELD BY GAS WELL.

Bristow, Okla., Aug. 4.—A giant gas well here estimated to be making 30,000,000 feet of gas, is holding up all passenger and freight traffic over the St. Louis and San Francisco railroad between here and Kellyville and delaying all traffic between Tulsa and Oklahoma City.

The well is but 150 feet from the railway tracks and has filled the valley for more than a mile around with gas.

Railway officials fear the operation of trains will ignite the gas.

Oil men express the belief that barring emergencies, the well will be under control in time for traffic to be resumed late today. Meanwhile several trains are laid out.

The giant well, which is in wildcat territory, came in Thursday night.

## IN THE CHURCH.

In itself church membership amounts to nothing; it depends upon what we do with it. If we take advantage of its opportunities and faithfully meet its obligations, it is one of the greatest things in the world. But if we fail to take advantage of these opportunities and to meet these obligations, our church membership means absolutely nothing. We once knew a young man who matriculated in a first-class college, but never attended a single recitation. He was in college (!), and he got nothing out of it. So one may be in the church and get nothing out of it.

—Central Methodist.

## PIKEVILLE

## Pike County Slayer To Die In Electric Chair.

Dave Brown, slayer of Jim Brumfield in Pike county, May 31, 1921, must die in the electric chair at the Eddyville penitentiary August 28. Governor Morrow has signed his death warrant and E. E. Trivette, Assistant Secretary of State who as county Judge of Pike county held his examining trial and signed his commitment, also affixed his signature to the death warrant. Brown shot and killed both Brumfield and Brumfield's little daughter who was in her father's arms.

## Grant Ford Laid To Rest At Ford's Branch.

Grant Ford died at Garrett following a brief illness which it is said may have resulted from drinking some poison beverage.

The remains were taken through Pikeville enroute to Ford's Branch where the interment took place.

The deceased was a brother to R. A. Ford and was well known in Pikeville.

## At Camp Knox.

Several young men from Pikeville and vicinity left for Camp Knox where they will undergo one month of military training. Among those going were Dick Moore, Ancel Ratliff, Orville McCoy, Harry Kendrick, William Younce, Squanto Adkins and Cullen Varney.

## Away On Vacation.

Prof. and Mrs. John Shaw and baby daughter left Thursday for a month's vacation through Kentucky. They will visit Greenup, Lexington, Louisville and other points.

At Greenup they will visit Mrs. Shaw's father, Congressman Bennett, whom they have not seen since he underwent a serious operation at the Johns Hopkins hospital some time ago.

On their return to Pikeville Prof. Shaw will probably teach until January when he contemplates going to Columbia University for one semester in order to secure his A. M. degree. Prof. Shaw, while in the overseas' service during the World war, was a student at Oxford University one term where he secured eight credits.

## New Addition To Plant.

The Pikeville Ice Company has just completed an addition to its plant here and will engage in the manufacture of ice cream just as soon as the machinery can be installed.

In an interview with Mr. Kissner, who represents the oldest and largest house of this kind in America, told us that the machinery purchased by the local concern was of the very latest model, and the highest quality that his concern manufactures, and that the sanitary features, both of the machines and the building would merit respect attention in the community.

## Mrs. Linton Trivette III.

Mrs. Linton Trivette has been suffering several days with poisoned feet contracted, it is thought, from poison oak. The infection has been aggravating and a number of physicians have been consulted. Mrs. Trivette is one of Pikeville's most popular ladies and is an active leader in social circles.

## Killed At Virgie.

Tuesday White Bartley shot and instantly killed Lewis Stout, at Virgie on the railroad about half a mile below the station. It is said that whiskey played its usual part.

Stout was a resident of West Virginia and was unarmed at the time he was shot, it is reported. Bartley was a native of Shelby creek, and at present resides at Virgie.

Two shots were fired into the body of the victim taking effect in the breast and producing instant death.

Bartley surrendered to the authorities and was brought to Pikeville Wednesday and placed in jail.

On the same night Jerry Little was shot through the leg while attempting to escape through the window while officers raided his home on Shelby. Two officers went to the home of Little in the search of his brother, Brack Little, who escaped from the jail here some time ago while under sentence for violations of the prohibition laws. It appears that the officers had no papers for the arrest of Jerry Little but when he attempted to escape he was seized by them and during the skirmish which followed was shot. The wounded man recently served a sentence for violating the prohibition laws.

## \$200,000 Worth Of Bonds Sold.

Two hundred thousand dollars worth of Pike county road bonds were sold to C. W. McNear & Company of Chicago. The money realized from the

will be placed in the hands of a commission formerly appointed by the Fiscal Court to handle the same. This commission is composed of Tom Williamson of Pikeville; Ballard Weddington of Coal Run and Orison Smith of Canada.

## Motored To Williamson.

Judge W. W. Reynolds motored to Williamson, W. Va., Monday. The route taken was via Bevins Branch of Johns creek and the Road Fork of Pond.

Judge Reynolds was accompanied on the trip by his son, Buster and by Carroll Jackson. He found the auto a convenient means of transacting business along the route in spite of the inconvenient road conditions much of the way.

Judge Reynolds relates the following peculiar incident:

While at work on the Pikeville-Williamson road during an electrical storm workmen had loaded 16 shots and two men were suddenly a stroke of lightning saved them the trouble of igniting a match. The two men picked themselves up some several feet away and to their surprise neither was seriously hurt.

## On Vacation.

During the absence of Dr. R. W. Raynor, who is away on vacation, Dr. W. J. Walters will be in charge of the Trachoma Hospital. Dr. Walters is one of the best physicians of the state and his being called to occupy this important post is a deserving compliment.

Hotel or any other arrangements will be gladly attended to by committee, and any further information furnished.

## PAINTSVILLE

## Church Members Give Sowards Birthday Party.

Member of the Mayo Memorial church gave a surprise birthday party for the pastor, Rev. H. G. Sowards Wednesday evening. The parlors of the church were decorated and a large number of the members of the church, as well as many others were at the party. Rev. Sowards had a birthday and the members arranged this little surprise party in his honor. Refreshments were served and the pastor was presented with a new suit of clothes by the ladies of the church. Hon. M. C. Kirk made a nice talk and presented the present and on behalf of all the church people telling the pastor how the people appreciated his years of service. The pastor responded in a touching speech.

Rev. Sowards is President of the Jno. C. C. Mayo College in addition to being pastor of the Mayo Memorial church. He is popular with the members of his church as well as the people of the town and community in general. Seven years in one place for a Southern Methodist minister, whose popularity grows each year with the members of his church and the community generally is a record to be proud of. Rev. Sowards is a valuable man for this section and his efforts in the church and the college are greatly appreciated by the people.
